

## BUILD THE SAME SUBJECT CONTEST

- **The Build the Same Subject (BTSS) is our annual holiday contest special (*held at the December meeting*) of the same subject, across various modeling genres.**
- **The club buys a selection of kits and sells them to members wishing to participate at a discount.**
- **If the member purchases the kit from the club and finishes it for the December meeting contest, the club reimburses the modeler.**
- **If you already own a kit of the subject or purchased it from another source you may still enter it in the contest but you will NOT be reimbursed.**
- **Usually we pick one subject in a few different genres (i.e. aircraft, armor etc.) You may only purchase (*and reimbursed for*) ONE from the club.**
- **Judging is by popular vote, same as in the regular monthly contest. Best of Show will be selected by IPMS qualified judges.**
- **As in the regular monthly contest, one model will be selected as the Best Out of Box. Only parts provided in the original kit may be used with exception of aftermarket decals, simple tape seat belts and rigging on biplanes.**
- **Winning a First Place award in this contest DOES count toward you Master Modeler status.**
